

# High Temperature Commercial Grade Condensate Pumps

## Model A2SA Series Pumps

# DATA SHEET

### BENEFITS

- 💧 High temperature to 212° degrees
- 💧 Stainless steel float
- 💧 Solid cast aluminum reservoir
- 💧 Multiple piping arrangements
- 💧 Maintenance-free ball bearing design eliminates need for lubrication

Hartell's Model A2SA commercial grade condensate pump series defines a new standard of quality and performance. These pumps offer unmatched service life by using oil- and chemical-resistant, high-temperature rated materials with robust design elements. Additionally, these pumps offer motor protection from steam and water splash, helping to ensure maximum motor life.

The A2SA commercial grade condensate pump is designed for heavy duty removal of high temperature condensate.

### FEATURES

- 💧 1 Gallon, heavy-duty, cast aluminum reservoir
- 💧 Thermally protected motor
- 💧 Unitized construction
- 💧 Constructed of the highest quality workmanship and materials
- 💧 Usable lifts up to 20 ft
- 💧 Inlets size options: two 1¼ in.
- 💧 Commercial application
- 💧 Expert design to maximize condensation collection and removal
- 💧 Snap-action switch
- 💧 Extended maintenance free service
- 💧 6-ft cord and plug
- 💧 12 month warranty
- 💧 Stainless-steel float
